RHODODENDRON MAXIMUM

FOURTEENTH ANNUAL WHOLESALE PRICE LIST

OF

HARDY NATIVE TREES AND FLOWERING SHRUBS FOR IMMEDIATE EFFECT

The Charles G. Curtis Co.

Collectors and Growers

CALICOON, NEW YORK

RHODODENDRON MAXIMUM,	Azalea Nudiflora,
Mountain Laurel,	White Dogwood
Hemlocks,	White Thorn,
Pines,	Withe Rod,
American Larch,	Black Alder,
June Berry,	Beech,
Wild Roses,	Birch.

HARDY FERNS.

Cinnamon,	Interrupted,
Ostrich,	Evergreen Wood Fern,
Royal,	Christmas,
Dicksonia,	Spinulose Wood Fern.

Nurseries, one-eighth and two miles from Station.

Office, Bridge St., Callicoon, N. Y.

We quote below freight rates per car, 16,000 lbs., from Callicoon to various points, as a guide for our customers:

Pittsburg, Pa.	\$35.36	Cincinnati, Ohio	\$51.20
Buffalo, N. Y.	32.16	Hempstead, N. Y.	31.84
Chicago, Ill.	58.88	Bellport, N. Y.	43.04
Cleveland, Ohio	41.76	Poughkeepsie, N. Y.	26.80
New York, Long Island City, N. Y., and Philadelphia, Pa.			30.74
New Haven, Conn., Boston, Mass., and Providence, R. I.			32.00
Rochester and Albany, N. Y.			30.24
Newark and Rutherford, N. J.			25.28
Bayport, Glen Cove, Locust Valley and Oyster Bay, N. Y.			36.64

We are offering below a list of RHODODENDRON MAXIMUM and other hardy native trees and flowering shrubs direct from their natural home, where the conditions of soil and climate are especially adapted to growing strong and vigorous stock.

Callicoon is located in the upper valley of the Delaware River on the borders of the States of New York and Pennsylvania, and on the main line of the Erie railroad. Plants grown in this northern climate are good hardy stock that will stand transplanting any place. We have over 200 acres used exclusively for growing native trees and shrubs.

DIGGING.—Special care is observed in digging. All our plants are lifted with a good ball of earth and roots.

PACKING.—This work is done by experienced men. All cars have the bottom covered with a layer of rotten wood and leaf mould. This material answers two purposes, it keeps the plants moist and in good condition during transit and on arrival should be used in planting out the stock. The plants are placed on this and thoroughly wet. Door spaces are packed with spagnum moss for the special protection of plants most exposed. Where a car is decked poles are used for decking. The poles are covered with burlap and a layer of spagnum moss placed on it. No extra charge is made for decking. Where customer desires plants laid flat or cord wooded, the same is carefully done and spagnum moss used liberally between the layers to protect the roots and keep them moist. When shipping less than car load lots, an extra charge to cover the actual cost of crates and packing is made. While we take all precaution in packing these plants, we cannot be held responsible for delays and damage in transit. We accept all orders upon condition that they shall be void should injury befall stock from frost, fire, hail storm or other causes over which we have no control. When burlapping is desired an extra charge of 8 to 15 cents per plant will be made.

CLAIMS.—No claims for rejection or deficiencies will be entertained unless made within ten days after arrival of goods.

PRICES.—Our prices may not be the lowest, but PRICE is a secondary matter when considering the purchase of trees and shrubs. Quality should count most, also the record of fourteen years of fair dealing.

RHODODENDRON MAXIMUM.

There is a charm about the RHODODENDRON MAXIMUM not possessed by any other shrub in the garden. It is a perfect evergreen and its broad rich-green foliage adds beauty to the grounds the year round. In June and July it bears great clusters of glorious pink and white flowers. They should be planted under trees or high shrubbery or in some partly shaded place. We have a magnificent lot of plants raised by the following method. We buy large tracts of land which is covered with RHODODENDRON MAXIMUM as they grow in their natural state. We then cut the old wood off and burn up the brush, also prune the trees to give the young plants the proper amount of shade. Then keep the brush away from them so they will have a free chance to grow. By this method we can grow fine second growth plants of symmetrical shape, with a root system that will stand transplanting with a minimum loss. We have fol-

lowed this method for years, and now have the FINEST and LARGEST STOCK of these plants grown in this country.

Number of plants a car will hold by different ways of packing:

	Price per clump	Car floor space	Car double decked	Car triple decked	Car cord wooded
1 to 2 ft.	\$.35	400-500	700-800	1000-1100	
2 to 3 ft.45	300-400	500-600	700-800	
3 to 4 ft.60	250-300	450-500		1200
4 to 5 ft.75	150-200			800
5 to 6 ft.	1.50	100-150			500
6 to 10 ft.	6.00	20-22	Extra Heavy		
2-8 ft.35	400-500	For Mass		1000
2-5 ft.50	250-300	Mixed Sizes		1200

KALMIA LATIFOLIA (Mountain Laurel)

The plants are collected from open fields, where they have a free chance to grow with very little, if any, shade, which insures good stocky plants. In the months of June and July the entire plant is one mass of pink and white blossoms.

1 to 2 ft.	\$.35	400-450	600-700	800-900	
2 to 3 ft.45	300-350	450-500	600-650	
3 to 4 ft.60	150-200	250-300		800
4 to 5 ft.90	100-150			400
1 to 4 ft.50	250-300	400-500		800

AZALEA NUDIFLORA.

These plants are collected from the open woods and fields, where they have been cut or burned off. Only very stocky second growth plants are dug. They blossom in May and June with an abundance of pink blossoms, the most beautiful of all early flowers.

1 to 2 ft.	\$.15	800-1000	1400-1600	2000-2200	
2 to 4 ft.20	600-800	1000-1200		2500
4 to 6 ft.35	400-500			1500
6 to 8 ft.50	250-300			800
2 to 8 ft.35	600-700	Mixed sizes		2000

PINES.

Pinus Strobus.

Pinus Ecpinata.

These trees are collected from fields where they have seeded in, and are all stocky and well furnished.

1 to 2 ft.	\$.15	1200-1500	2000-2200	2800-3000	
2 to 4 ft.35	800-900	1200-1400		2500
4 to 6 ft.75	300-400			1500
6 to 8 ft.	1.50	175-200			600
8 to 10 ft.	2.50	60-75			200

Prices quoted on larger sizes on application.

TSUGA CANADENSIS (Hemlocks).

These trees are collected from old fields where they have seeded in, and are all well furnished and stocky.

Number of clumps a car will hold by the different ways of packing:

	Price per clump	Car floor space	Car double decked	Car triple decked	Car cord wooded
1 to 2 ft....	\$.10	1200-1500	2000-2200	2800-3000	
2 to 4 ft....	.25	800-900	1200-1400		2500
4 to 6 ft....	.50	300-400			1500
6 to 8 ft....	.85	175-200			600
8 to 10 ft....	1.25	125-150			400
10 to 12 ft....	2.50				150

AMELANCHIER CANADENSIS (June Berry).

This stock has been collected from the open woods where they have been cut or burned off. Only stocky second growth plants are dug. In early Spring they are the most conspicuous objects, a mass of pure white, when the landscape is everywhere else destitute of blossoms,—as yet no trees out in leaf. This fact alone renders this species valuable in ornamental work. The earliest of all the flowers:

2 to 4 ft....	\$.25	250-300	350-400		700-800
4 to 6 ft....	.35	200-250			600-700
6 to 8 ft....	.50	150-200			400-500
8 to 10 ft....	.75	125-150			300-350
2 to 10 ft....	.50	200-250	Mixed sizes		500-600

CORNUS FLORIDA (Dogwood).

These trees are collected from the open woods where they have had a chance to branch out. Saucer-shape, pure white flowers in the month of May. Very beautiful, not only when in blossom, but in the Autumn for the bright red foliage and berries.

2 to 4 ft....	\$.10	800-1000	1200-1400	1600-1700	2500
4 to 6 ft....	.25	400-600			1500
6 to 8 ft....	.50	200-250			800
8 to 10 ft....	1.00	100-150			400
2 to 10 ft....	.40	200-250	Mixed sizes		700

AMERICAN LARCH OR TAMARACK.

The light green foliage of the Larch presents a very pleasing contrast when planted with evergreens.

Price and number per car same as Hemlocks.

WILD ROSES.

ROSA CAROLINA.—This is an excellent plant for park lanes and roadsides. It is hardy and will grow in any good soil with only a moderate amount of water, and the flowering season is long. 4 to 7 ft.

10 cents each

ROSA HUMILIS.—Fragrant and very hardy. One of our best Wild Roses. 1 to 3 ft.

10 cents each

CRATAEGUS COCCINEA (White Thorn).

This stock is collected from old fields, where they grow very stocky. A very beautiful shrub, not only for its white flowers in the month of May, but for the immense amount of red berries in the Fall.

Number of plants a car will hold by the different ways of packing:

	Price per clump	Car floor space	Car double decked	Car triple decked	Car cord wooded
2 to 4 ft.....	\$.35	225-250	300-350		500
4 to 6 ft.....	.60	150-200			400
6 to 8 ft.....	1.00	100-125			300

BLACK ALDER

Ilex Monticola. Ilex Verticillata (Winter Berry).

This stock is collected from the open woods where they have a chance to branch out and grow stocky. This plant is much prized for the beautiful red berries with which it is covered in the Fall. The berries ripen on the Monticola the last of August and stay until October. The berries on the Verticillata ripen in October and stay all Winter. If they are planted together there will be a continuous show of red berries from August until March.

2 to 4 ft.....	\$.35	600-700	1000-1100	1400-1500	2500
4 to 6 ft.....	.50	400-500			1500
6 to 8 ft.....	.75	250-300			800

VIBURNUM NUDUM (Withe Rod)

This stock is collected from the open woods and old fields. Only good stock plants are dug. It is the most beautiful of all the Viburnums on account of the large clusters of red berries in August and September. It has a white blossom in May.

2 to 4 ft.....	\$.35	450-500	600-650	1200
4 to 6 ft.....	.60	350-400		1000

BIRCH, BETULA LUTEA, BETULA LENTA.

These trees are collected from the open woods where they have seeded in.

2 to 4 ft.....	\$.05	2000-2200	2800-3000	6000
4 to 6 ft.....	.10	1200-1500		4000
6 to 8 ft.....	.25	400-500		2000
8 to 10 ft.....	.40	250-300		800
10 to 12 ft.....	.60			600
12 to 14 ft.....	1.00			400

FAGUS FERRUGINEA (Beech).

These trees have been collected from the open woods where they have seeded in.

For schedule and price see Birch schedule above.

HARDY FERNS.

The following list of Ferns are dug in large clumps with from one to four Ferns in a clump. They can be used by massing or planting separately, but they have especially fine effect planted with RHODODEN-

DRON MAXIMUM or other evergreens. Any car load could contain 200 or 300 Ferns without extra cost for transportation, for they can be packed in between other plants, filling in vacant spaces.

	Each	Per 100	Per 1000
Cinnamon	\$.10	\$ 7.00	\$60.00
Ostrich10	7.00	60.00
Royal12	10.00	80.00
Interrupted10	7.00	60.00

Christmas, Spinulose Wood, Evergreen Wood, Maiden Hair, 5 cents each, \$3.50 per 100, \$25.00 per 1000.

Dicksonia Punctilobula (Hay scented fern). This fern grows in feathery masses; the roots are cut in squares similar to sod, and sell at 10 cents per square foot.

NURSERY GROWN TSUGA CANADENSIS AND PINUS STROBUS.

These trees are fine specimen trees that have been collected and then grown in our nursery for at least two years, to grow a properly developed fibrous root system. We have been very successful in growing these trees, and are now offering this extra fine stock at the following prices, balled and burlapped. 50 at the 100 rate.

Each	Per 100	Each	Per 100
12 to 18 in....\$.30	\$25.00	5 to 6 ft....\$3.00	\$275.00
18 to 24 in.... .50	40.00	6 to 8 ft.... 5.00	475.00
2 to 3 ft.... .75	70.00	8 to 10 ft.... 8.00	750.00

Each	Per 100	Each	Per 100
2 to 3 ft....\$1.00	\$ 90.00	4 to 5 ft....\$2.00	\$180.00

FLAT WATER WORN STONES FOR RUSTIC WALKS AND WALLS.

Stone formation in this section is of very hard blue and grey stone, which is used extensively for flag stone. The stones we offer for sale are collected from the bed of the river and its branches, where they have lain for generations and have become smooth and hard and the edges round from the action of the water. These stones are collected in the Summer time when the water in the river is very low. They vary in size from six inches to two feet and one to six inches in thickness.

Price 10 cents each on assorted sizes, or we will quote special price on specific sizes.

The above listed stock has been inspected by a State inspector and is free from all diseases and injurious pests.

THE CHARLES G. CURTIS COMPANY,

Callicoon, N. Y.
